Dear Beech Mountain Homeowners,

As many of you know the Town of Beech Mountain operates an enhanced Emergency 911 system. When the system was initially set up, we collected data from property owners and have since been updating that information when it was volunteered, when new phones were installed or when property was transferred.

By having up-to-date information in our computer systems, emergency responders can more effectively and efficiently help you in case of an emergency.

Be assured that all information you supply will be held in the strictest confidence. Thank you for helping us continue to help you.
